(CONT.)

XVI. COMMENTS

Cerro Copper Products Co., pursuant to recommendations made by agency personnel, requested withdrawal from the "Part A Permit System" on July 26, 1983 by directing letters to that effect to U.S. EPA, Region V and Illinois EPA, Springfield.

The agency has inspected our premises and based on its observations and conversations with Cerro personnel has confirmed that withdrawal is appropriate and therefore recommended.

To date we have not been officially informed of our withdrawal, by Mr. Kenneth G. Mensing, Southern Region Manager of the Land Field Operations Section, Division of Land Pollution Control, advises us that our applications for withdrawal are being processed and that we will be notified shortly.

We therefore submit the Generator Annual Hazardous Waste Report, page 1 on a pro-forma basis only and anticipate that we will be taken off the mailing list in future years.
